SUMMARY

Motivated B.Sc. graduate aiming for an entry-level position in data analytics or web development where I can harness internship-acquired skills in Python, SQL, and HTML/CSS to build efficient systems, including project-based tools for data visualization and admin management, while pursuing continuous professional development.

EXPERIENCE

Programming in Python Internship

I-TECH SOFT SOLUTION

September 2024 - October 2024, Coimbatore

- Through the internship, Python developed proficiency in Python core concepts like data types, conditionals, and modules, while learning HTML for structuring web content; applied these to build a prototype script that parses data into an HTML report, enhancing skills for automation in web-based analytics.

Full Stack Internship

SOFTLOFT TECHNOLOGIES

July 2024 - July 2024, Coimbatore

- In the full-stack internship, acquired HTML expertise for semantic markup and CSS proficiency in visual enhancements like colors, fonts, and layouts; applied these to mock full-stack workflows, simulating data rendering from backend to frontend for dynamic web experiences

PROJECT

ONLINE CUSTOM BIKE BUILDER

December 2024 - March 2025

- The Online Custom Bike Builder System is a web application developed using C#.NET as the frontend and SQL Server as the backend to automate automobile management, enabling users to view bike details, register, log in, and book spare parts efficiently. It reduces manual work with user-friendly features for registration, product viewing, and ordering, while admins add/update automobile details and monitor bookings. This project computerizes spare parts management for streamlined operations and informed updates.

EDUCATION

B.Sc. Computer Science

Karpagam Academy of Higher Education • Coimbatore • 2025 • 7.3

HSC

Akshaya Academy Matriculation School • Oddanchatram • 2022 • 63.1%

SSCL

Akshaya Academy Matriculation School • Oddanchatram • 2020 • 65.4%

CERTIFICATIONS

Certified in C Programming Language

SoloLearn • 2024

Certified in GenAI Powered Data Analytics

TATA Forage • 2024

Certified in CSS, Javascript, PHP and Python Programming

Udemy • 2024

SKILLS

C, SQL, Python, HTML, CSS

Ms Word, Eclipse, Visual Studio, Excel, PowerPoint, Windows

English, Tamil
